Contents

Volume 1, number 1, March 1980

Editorial 1

Reviews and Theory

Historical note on the term "appetite". R.C. BOLLES 3
Benzodiazepines as appetite-enhancing compounds. S.J. COOPER 7
A model of the short-term control of feeding in the ruminant: effects of changing animal or feed characteristics. J.M. FORBES 21

New Findings

Possible links between hypothalamus and substantia nigra in the rat. A.K. WRIGHT, I.F. TULLOCH and G.W. ARBUTHNOTT 43
Gustatory responses and eating duration of obese and lean adults. S.A. WITHERLY, R.M. PANGBORN and J.S. STERN 53
Responsiveness in newborn infants of overweight and normal weight parents. R.M. MILSTEIN 65
Anxiety, perceived control, and eating in obese and normal weight persons. J. SLOCHOWER and S.P. KAPLAN 75
Hyperphagia (Abstracts) 85
Integration of central and peripheral receptors in hunger and energy metabolism (Abstracts) 89

Announcements 2, 52, 84

Volume 1, number 2, June 1980

Review and Commentary

Stress-induced eating: fact, fiction or misunderstanding? T.W. ROBBINS and P.J. FRAY 103
Stress-induced eating and eating-induced stress (reduction?): a response to Robbins and Fray. C.P. HERMAN and JANET POLIVY 135

New Findings

The analysis of human feeding patterns: the edogram. F. BELLISLE and J. LE MAGNEN 141
Effects of anorexic drugs on food intake, food selection and preferences and hunger motivation and subjective experiences. J.E. BLUNDELL and P.J. ROGERS 151
Increased salt appetite precedes the onset of arterial hypertension in spontaneously hypertensive rats. G.J. MOGENSON and P. MORRIS 167
Putative satiety signals in feeding in normal-weight and obese animals (Abstracts) 173

Book reviews 177

Some recent titles 179

Announcement 140

Volume 1, number 3, September 1980

New Findings

The psychological categorization of foods and non-foods: a preliminary taxonomy of food rejections.
P. ROZIN and APRIL FALLON 193
Short-term intake of overweight individuals and normal weight dieters and non-dieters with and without choice among a variety of foods.
PATRICIA PLINER, JANET POLIVY, C. P. HERMAN and I. ZAKALUSNY . . 203
Effects of benzodiazepines and naloxone on food intake and food preference in the rat. SANDRA E. FILE 215

Commentary and Reply

Stress-induced eating: misrepresentation?
N. ROWLAND and D. M. MARQUES 225
Stress-induced *over*eating? A response to Robbins and Fray.
R. C. BOLLES 229
Stress-induced eating; reply to Bolles, Rowland and Marques, and Herman and Polivy. T. W. ROBBINS and P. J. FRAY 231

Book reviews
C. W. Schwabe, *Unmentionable cuisine* (F. J. Simoons) 241
R. Forster and O. Ranum (Eds.), *Food and drink in history* (F. J. Simoons) . . 242

Titles

Seventh International Conference on the Physiology of Food and Fluid Intake, Warsaw (Titles) 245
Current titles 251

Announcement. 202

Volume 1, number 4, December 1980

New Findings

Antidipsogenic effect of clonidine on isoproterenol-induced water intake.
M. J. FREGLY and D. L. KELLEHER 279
Obesity and cultural weight valuations: a Puerto Rican case.
EMILY BRADLEY MASSARA 291
Release of feeding by the sweet taste in rats: oropharyngeal satiety.
D. G. MOOK, CLAUDIA A. BRYNER, LYNN D. RAINEY and CATHY L. WALL. 299

Review and Comment

International Commission on the Anthropology of Food and Food Problems. Statement on its history and current objectives.
MARY DOUGLAS and R. S. KHARE. 317
Nutrition, behavior, and the life cycle.
E. STELLAR, SUSAN J. HENNING, JUDITH RODIN, P. ROZIN and G. T. WILSON 321
Critical evaluation of the present conceptual processing behind experimental investigations (lecture).
J. LE MAGNEN 333
Intakes are limited; satieties (lecture).
E. F. ADOLPH. 337
Arousal-induced eating: a response to Robbins and Fray (commentary).
LYNN SPITZER, JANICE MARCUS and JUDITH RODIN 343
Stress-induced eating: rejoinder (reply).
P. J. FRAY and T. W. ROBBINS 349

Book reviews
J. H. A. Kroeze (Ed.), *Preference behaviour and chemoreception* (C. K. Crook). 355
C. I. Thompson, *Controls of eating* (D. A. Booth) 356

Bibliography

Current titles 359
Announcement. 290
